

Hiperguard Premium Enhance – maximum protection and colour.

Hiperguard™ Premium Enhance (PE) is a premium grade surface impregnator which is used in the final step of the HiPERFLOOR™ process. Hiperguard™ PE penetrates the concrete to form a film along the surface of the capillaries. This increases the surface tension of the floor, restricting the absorption of water, oil, fats and dirt. Stains are kept at the surface level, which simplifies maintenance and cleaning and extends the lifespan of the floor. Hiperguard™ PE also helps enhance the colour of the material being sealed.
