MSP445

The MSP445 is powerful and responsive due to its weight-to-horsepower ratio. The five-bladed rotor is driven by a super heavy-duty gearbox, allowing the power to be delivered where it's needed. Standard features include an electric-powered spray system and built-in cup holder. For easier maintenance, the MSP445 features a removable front panel for easy access.

STEEL FLOAT PANS

Allen Engineering pioneered the use of floating discs (or pans) on riding trowels in 1989 and Allen® Pans remain today the finisher's choice when high FF Numbers are specified on a concrete floor. Allen's flat pan tolerances cut bumps and fill low spots in the concrete floor. Insist on Allen® Steel Pans for your Allen Riders and Walk-Behinds. Made to the same exacting tolerances as the trowels themselves, nothing finishes better.
